## 'Read all about it... What's the News from the River Severn?'

This project plan was created by Helen Iles of Coaley Church of England Primary School in Gloucestershire and John Putley, the Learning & Outreach Officer of Gloucestershire Archives.

### Objectives for the Unit:

- Children will learn about an aspect of local history through studying how the River Severn and its people were affected by two events, one in the recent past and the other which occurred considerably earlier.
- Children will focus on how events are interpreted, both at the time and subsequently. They will use a range of historical sources to ask and answer questions and place their own interpretation on their findings.

### The subjects selected for the children to investigate for this project are:

- Shipwrecks and wrecking on the Severn Estuary, c1700s.
- The Severn Railway Bridge Disaster, 1960.

The material for this comes from a range of images and archive material that is contained in the accompanying PDF files.
