We work for Gloucestershire County Council

We visit to make sure you are getting the right support.

During the visit, we talk to you.

We talk to the people who support you.

We look at your safety,

your home,

your freedom to do things by  
yourself,

your activities,

your health needs,

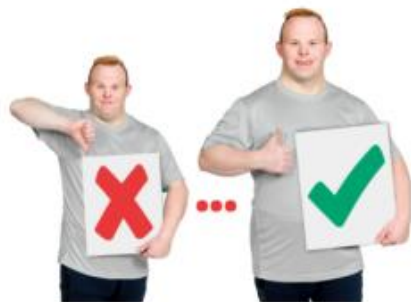

your medication,

and your support plans.

After the visit, we write a report about what is good, and what could be better.

We ask your support team to do some things better.

We check that things have got better.

You can ask us any questions during our visit.

You can phone us to tell us about any concerns.
