

KNIGHTS BROWN

A419 STONEHOUSE JUNCTION IMPROVEMENTS

UPDATE 3: 13/05/2019 – 26/05/2019

PROJECT UPDATE

Night works have continued over the past fortnight to complete footpath and carriageway widening on the westbound and east bound verges at Chipmans Platt.

You may have also noticed that we have been digging trenches on Spring Hill Road and Grove Lane. These trenches will house cabling for the new street lighting and BT.

We have also begun work directly on Chipmans Platt roundabout. This work has involved the excavation of a deep drainage trench and the installation of new drainage pipes to improve the drainage system within the local area. These works have been completed under our comprehensive environmental management plan to make sure that we preserve the conservation verges and natural habitat.

If you would like further information on the scheme please contact us

TRAFFIC MANAGEMENT

NO CONSTRUCTION WORK WILL TAKE PLACE OVER THE MAY BANK HOLIDAY WEEKEND

We will continue working overnight under traffic lights, until the end of May. From June, we will begin working during the day. This will involve narrowing lanes to enable us to work behind barriers. A 30mph speed limit restriction will be put in place to protect our workforce and to enable us to carry out the works safely.

LOOK AHEAD PROGRAMME

Over the next month we will be continuing with the new carriageway widenings on the eastbound and westbound approaches of the A419.

The footpath on the westbound approach will be closed whilst these works are undertaken. We will ensure safe pedestrian diversions will be in place as necessary.

CALLING ALL COMMUNITY GROUPS

As part of our Community Engagement commitment we are looking for local projects that could benefit from our site team, volunteering their time and skills as part of our employer supported volunteering initiative.

If you currently have a project that you think we may be able to support, please get in contact with us via email:
